*Empowering Students to Shape the Future!*

*Junior  
Book Awards*

*June 08, 2022*

High School Book Awards are given annually to outstanding high school juniors by colleges and universities or their local alumni organizations. At the Academy of Information Technology & Engineering, the Book Award Committee looks to recognize students who not only achieve well academically but are also of high moral character and citizenship.

Sponsoring colleges and universities specify the criteria for their respective award. Award winners are encouraged to apply to the sponsoring institution which will often grant an application fee waiver.

***Congratulations to all 2022  
Book Award winners!***

## ALUMNI ASSOCIATION

The Harvard Prize Book Program was established by Harvard alumni in 1910 as part of an effort to attract the attention of talented young students to the opportunities at the College. In the program's first years, a Prize Book was awarded at only a handful of schools in the New England area. Today, nearly 2,000 Prize Books, sponsored by local Harvard alumni, are awarded in schools all over the world.

The Prize Book is awarded to an outstanding student in the next-to-graduating class who displays excellence in scholarship and high character, combined with achievement in other fields. The winners of this award, through their intelligence and variety of achievement, exemplify Harvard's commitment to excellence.

## Harvard Prize Book

The Prize Book of the Harvard Alumni Association shall be awarded to an outstanding student in the next-to-graduating class who displays excellence in scholarship and high character, combined with achievement in other fields.

**O**pen this book and step into the storied corridors of the nation's oldest university; encounter the historic landmarks and curiosities; meet the famous dropouts and former students, the world-class scholars, eccentrics, and prodigies who have given the institution its incomparable character.

An unofficial compendium of short but substantial essays about Harvard University—its undergraduate college and its graduate and professional schools—this volume traverses the gamut of Harvardiana from Aab and Admissions to X Cage and Z Closet. In between are over 150 entries written by three Harvard veterans who bring to the task more than 125 years of experience within the university. The topics range from essential facts to no less interesting ephemera, from the Arnold Arboretum designed by Frederick Law Olmsted to the peculiar medical specimens of the Warren Museum; from Arts and Athletics to Towers and Tuition: from the very real environs (Cambridge, Charles River, and Quincy Street) to the Harvard of Hollywood and fiction.

*Harvard A to Z* is a browser's delight, offering readers the chance to dip into the history and lore, the character and culture of America's foremost institution of higher learning.
